# Genuine HOLLAND-GROWN Bulbs

The Holland-grown bulbs are back again, the very best bulbs the world can offer. They are here in large quantities, and in all the glorious colors imaginable. That means that our spring gardens will again be beautiful and complete.

Our list of varieties is not a long one but it contains the finest new introductions and also the very best of the old favorites.

All bulbs listed in this circular should be planted this fall, from now until the ground is frozen.

The height given after the description of varieties is the approximate height they will grow under normal conditions. This will be influenced somewhat by location of plantings, soil and weather conditions.

All bulbs will be shipped prepaid anywhere in the U. S.
